BLÜCHER®

A WATTS Brand

The BLÜCHER® range comprises:

BLÜCHER® Drain Domestic

Shower drains for concrete/tiled and vinyl floors

- SQUARE, TRIO and CIRCLE
- Removable and easy-to-clean water trap
- Range of design gratings

WaterLine shower channels for concrete/tiled and vinyl floors

- For installation against wall(s) or away from walls
- Range of design gratings

BLÜCHER® Drain Industrial

Industrial drains for concrete/tiled, resin or vinyl floors

- SQUARE and CIRCLE
- Removable and easy-to-clean water trap
- Large range of gratings for all applications and load classes

BLÜCHER® EuroPipe

Push-fit drainage pipes and fittings, Ø50-Ø315 mm

- Low weight, high strength
- For vacuum and gravity systems
- RS82 renovation system (see separate catalogue)

BLÜCHER® Channel

Channels and kitchen channels for concrete/tiled, resin and vinyl floors

- Removable and easy-to-clean water trap
- Large range of gratings for all applications and load classes

BLÜCHER® HygienicPro

Point and linear drains for applications with strict requirements to hygiene and high capacity, e.g. production areas in the food and beverage industry

- Quickly leads away solid waste, even at small water volumes
- No corners and cavities inside thus preventing bacterial growth
- Less production stops for emptying and cleaning filter baskets

BLÜCHER® Drain Roof

Roof drainage system for single-ply membrane or bitumen in gravity and vacuum systems

- Roof drains and BLÜCHER® EuroPipe pipework system
- Easy installation
- Long product life expectancy

BLÜCHER® product catalogues can be ordered from our customer center or downloaded from www.blucher.com

HACCP certified

BLÜCHER is the first drainage system manufacturer to hold a HACCP certification confirming that the BLÜCHER® products support the integrity and safety of foods as demanded by industry expectations, legislation and standards.

AS 3495 (Stainless Non-Pressure)

Authorization requirements for plumbing products
- Stainless steel nonpressure pipes and fittings

BLÜCHER is owned by the American group Watts Water Technologies, Inc. (NYSE: WTS) which is a world leader in the manufacture of innovative products to control the efficiency, safety and quality of water.

Pipes and fittings for commercial and industrial applications

Push-fit system
Lightweight
Fire resistant

Applications

- Above or below ground
- Completely interchangeable between vacuum and gravity systems

Details

- Standard dimensions Ø50 - Ø315mm
- Standard lengths 0.15 - 6 metres
- Extensive range of fittings
- Sealing ring included (one sealing ring for gravity and vacuum)
- Stainless steel AISI304/EN 1.4301 or AISI316L/EN 1.4404

Variants

- Range of sealing rings for various applications

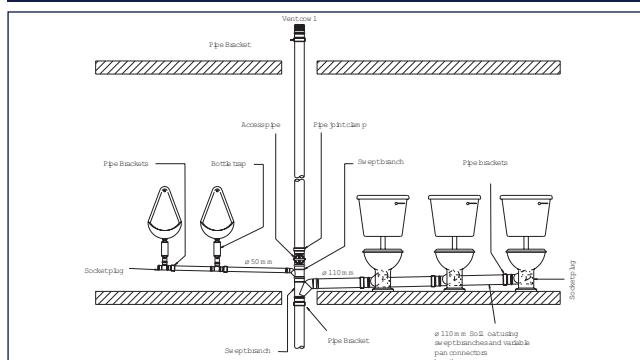

Options

- Range of pipe hangers
- Access pipe with hinged door
- Rat stop
- Electrical or manual pipe cutters

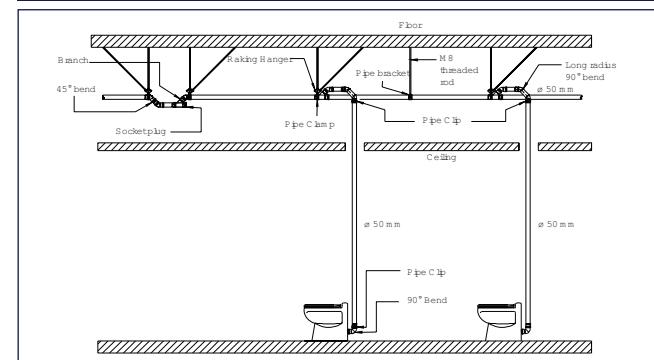

Complete systems

BLÜCHER® EuroPipe system can be used for many purposes - waste-water drainage, rainwater drainage, vacuum-cleaning systems, roof drainage

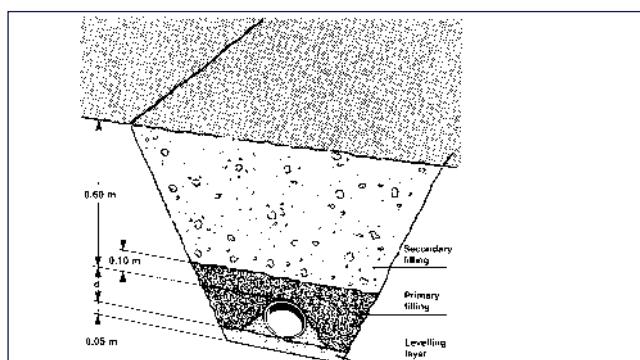

Waste-water drainage system, gravity

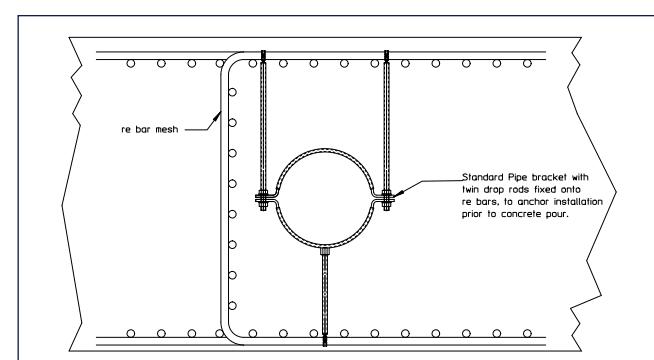

Waste-water drainage system, vacuum

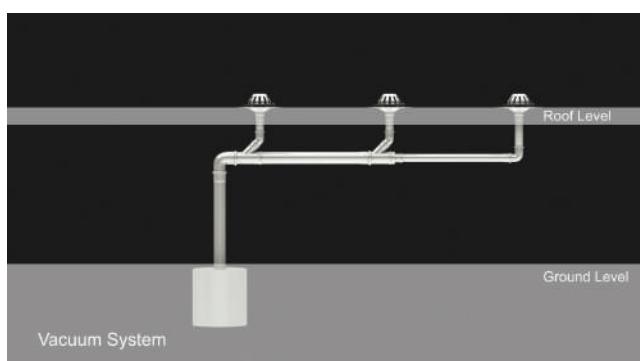

Below ground installation

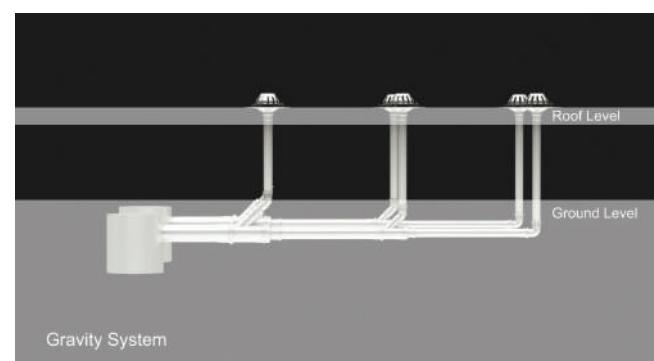

Below ground, pipes cast in raft foundation

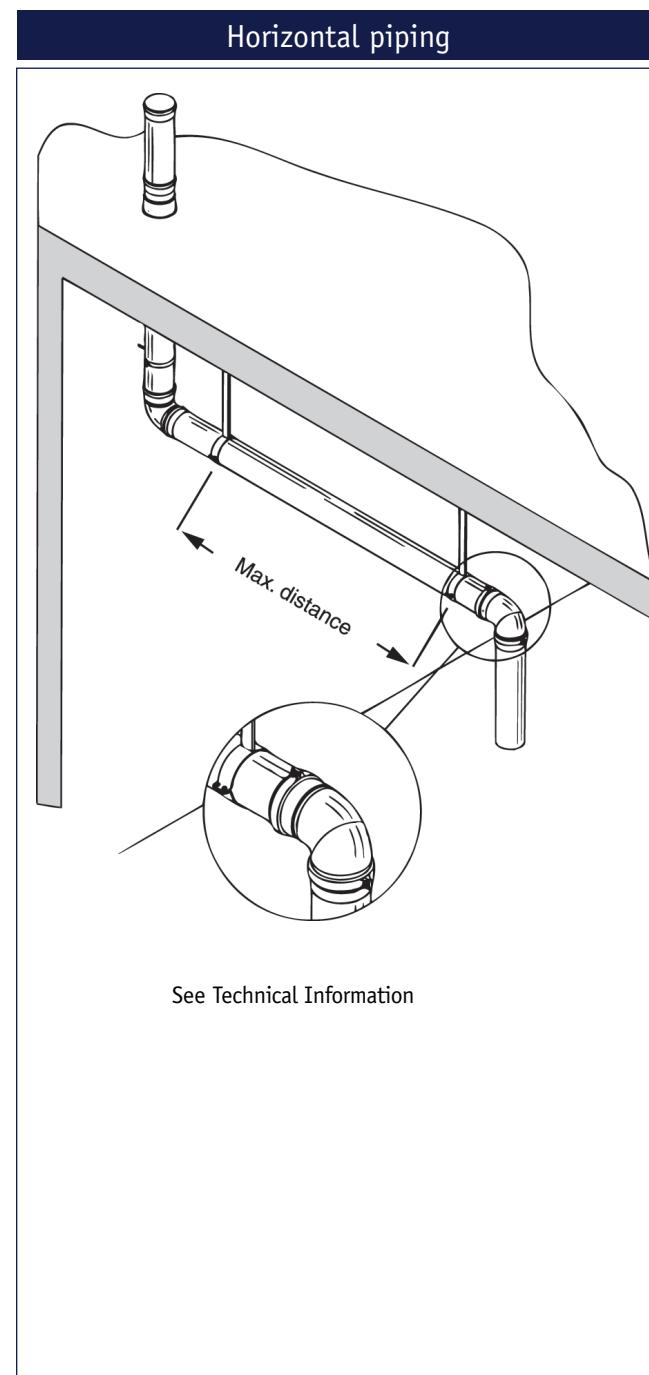

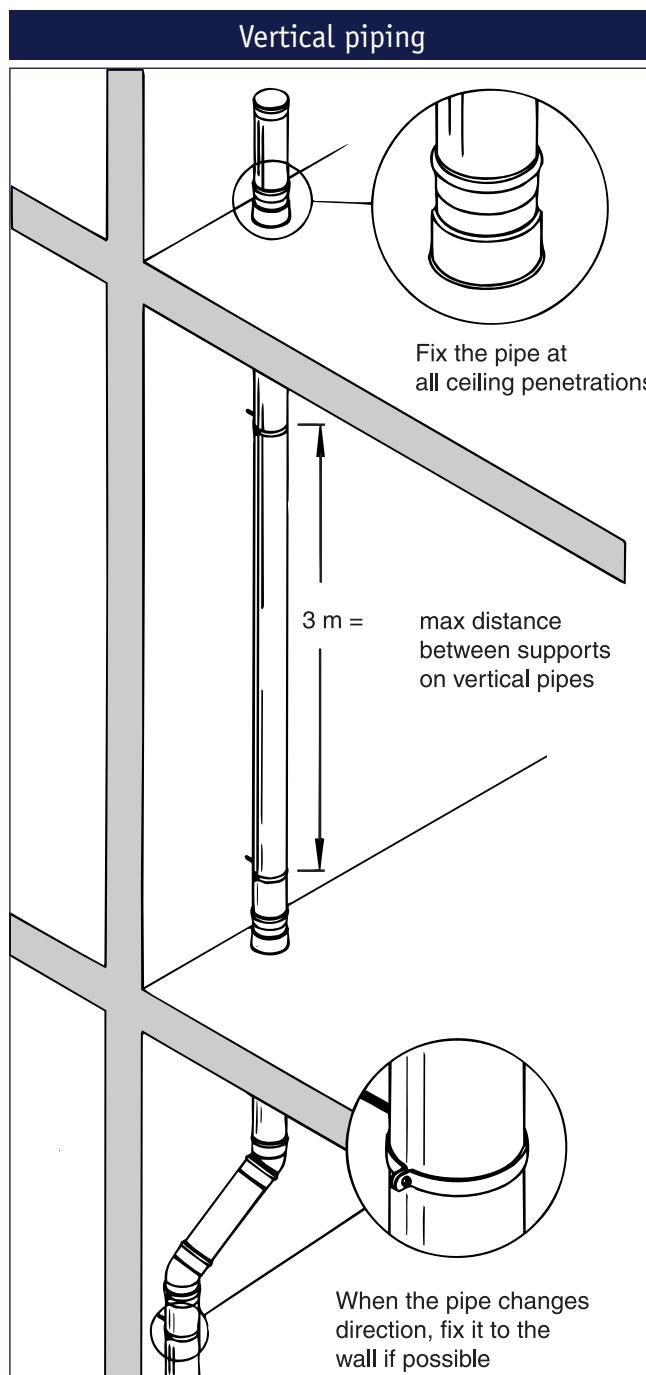

Siphonic rainwater installation

Gravity rainwater installation

Installation examples

One fixing point per storey is normally sufficient.
As opposed to plastic pipes, stainless steel pipes require only one pipe hanger per 3 metres, resulting in less sound and faster installation.

For further specifications and installation advice
see the catalogue:
"Technical information on BLÜCHER® EuroPipe".

Horizontal pipe runs are always to be installed with a gradient. If no self-cleansing calculation is available, a gradient of 20 ‰ is recommended in gravity systems. Horizontal pipe runs in vacuum systems are to be installed in accordance with the recommendations of the vacuum system supplier.

When connecting major branch lines, the pipe is to be fixed just below the branch line.
